RE: E-RATE YEAR 17 (7/1/14 – 6/30/15) INTERNAL CONNECTION PROJECTS
 FOR 9TH AND HIGH SCHOOLS

The “E-Rate” program of the Schools and Libraries Division (SLD) of the Universal Service Support Mechanism provides discounts to assist most schools and libraries in the United States to obtain affordable Telecommunications and Internet Access. Four service categories are funded: Telecommunications Services, Internet Access, Internal Connections and Internal Connections for Basic Maintenance. Discounts range from 20% to 90% of the cost of eligible services, depending on the level of poverty, defined by the SLD as students eligible to receive Free and Reduced Lunch and the urban/rural status of the population served.

Aldine ISD’s discount rate varies between 80% to 90% based on campus eligibility. This means Aldine pays 10% to 20% of the eligible portions and all of the ineligible portions of awarded projects if funded by the Schools and Libraries Division (SLD).

Applying for funding through E-Rate is similar to applying for a competitive grant. These monies are not guaranteed. In case Aldine does not receive funding, we budget local funds for essential services. The total grant value potential is **\$14,614,637.81**. If all projects are awarded, Aldine’s estimated matching funds would be **\$2,996,160.81**.

Requests for proposals (RFP) were sent to over 400 vendors on December 4th, 2013 by mail and over 350 by e-mail and a newspaper ad was listed in the Houston Chronicle on December 6th and December 9th, 2013.

The following proposal contracts will begin July 1, 2014 through June 30, 2015 unless funding is delayed. In this case, the contract will commence when funding is approved.
